
The DX Bulletin

ISSUE 107 SEPTEMBER 12, 1981

PROPAGATION: Sep 12, High Normal; Sep 13, Low Normal; Sep 14, Low Normal; Sep 15, High Normal; Sep 16, Above Normal; Sep 17, High Normal; Sep 18, High/Low Normal; Sep 19, Below Normal; Sep 20, Low Normal; Sep 21, High/Low Normal; Sep 22, High/Above Normal; Sep 23, High/Low Normal; Sep 24, High Normal; Sep 25, High/Low Normal; Sep 26, 27, High Normal; TNX N4XX.

K5VT in AFRICA

Vince Thompson doesn't give advance word of his African trips because, apparently, he is never sure of what will be happening until he gets there. His latest tour has included both Sao Tome, S9VCT, and, last week, considerable activity from Tunisia as 3V8VT.

Vince was due back in the States Sep 9, to meet with colleagues at Johns Hopkins University in Baltimore. Vince takes card of his own QSLing, at 4028 Perlita, Apt. 4, Los Angeles CA 90039.

SAN FELIX

WB1GDQ/CEØ now expects to hit Juan Fernandez at the very end of Sep followed by San Felix the first of October. Some of the local Chileans were not particularly happy at not being included in the operation, so two of them have been added to the San Felix team. The Grecian friends of WB1GDQ have given up on FCC having their novice licenses issued in time, and have dropped out. Donations are NOT being officially solicited, but would not likely be turned down.

Juan de Nova

FRØFLO/J and FR7BP/J had 8,000 QSOs on September 6 following three days of operations, with FLO on ssb and BP doing the CW chores. QSL to FRØFLO, Box 200, Tampon, F-97430, France.

K1CC in Poland

Rich Assarabowski, K1CC, ended up getting his own Polish callsign after all... S03CC. Rich was heard on 20 CW last weekend (Sep 5/6) while the Poles were holding their Solidarity Party Congress and the local Warsaw hams were having a ham convention. Look for a full report on Rich's adventures shortly.

DXPO '81

Still time to make your decision to make the scene in Atlanta Sep 19 and 20, detailed on page four of Issue 103. The main doorprize is a new TS-830S, for those who pre-register (any time up to Sep 19).

An added attraction just announced is the Jim Lawson, W2PV presentation on modern receiver design. Jim is driving down with some radios and test gear and will make a live presentation of measurements on a TS-830S, a TR-7, a KWM-380, and a 75S3C.

K4YT in AFRICA

Karl Renz, K4YT, has his traveling orders and leaves Oct 1 for Mauritius. After that he hits Malagasy 5R8, Tanzania 5H3, Malawi 7Q7, Kenya 5Z4, Rwanda 9X, Burundi 9U, and finally Somalia 60. Karl already has connections in most of these countries, and he's lining up a very small rig for those stops not having stations already on the air.

Although his schedule calls for one-week in each country, he often is delayed several days before moving on, so a concrete operating schedule is not possible. QSLs will be, as usual, by W2TK, Bob Renz.

The DX Bulletin (ISSN 0279-8077) is published weekly for \$26 per year in the U.S., Canada and Mexico; all others \$35 per year. *The DX Bulletin* is published at 306 Vernon Ave., Vernon, CT 06066 Second-class postage paid at Vernon, CT. POSTMASTER: Send address changes to *The DX Bulletin*, 306 Vernon Ave., Vernon, CT 06066

Just like Old Faithful, BY1PK is on the bands again from Downtown Peking (Beijing). This joker should at least get with the times and change his call to BY1BJ. Your QSL will come back with a nice offer to buy some Florida swamp land.

And some ever-hopeful are claiming that one of the Boeing boys now in China (Issue 106) was on signing /BY and worked three stations. When USSR hams were allowed back on the bands following WW 2, the date was set and on that day hundreds of U stations appeared from all districts, preventing mob scenes. We think that is just about what will happen when China rejoins the amateur radio fraternity; BY stations will be so thick you won't be able to work them fast enough.

OE1ETA (Ed) and OE2VEL (Wolf), now in the Pacific as /KH8 American Samoa, have several more stops: either Niue ZK2 or Tokalau ZM7 until the 14th, then Tonga A35 or Niue Sep 15-21, followed by the T3s (Kiribati) and Nauru in no particular order until Oct. 7. OE2DYL handles the QSLing. (Geoff Watts' DX News Sheet).

Speaking of American Samoa, James Michener (Hawaii, Islands of the Sea, etc.) was asked in a recent interview what country had the handsomest men. Samoa, he said. And the most beautiful women? Burmese.

XZ5A, by the way, is off the air only temporarily, according to compadre Laydoh Moo, XZ9A. San Plo, XZ5A, will return to the air about Sep 15.

First and only call for TDXB back issues; we have a supply from Issue 70 through the current Issue 107. Send a large SASE with one unit of first class postage for each three issues you need. Don't delay...we'll start burning our airtight woodstove in another six weeks!

Craig Peterson, KA2MI, is active about 1030Z several mornings a week on 14220 from Marcus Island (Minami Torishima). He's a novice, with a good signal into the states, says his friend N4FD. QSL USCG Loran Stn., Marcus Island, JA, FPO Seattle 98782. Craig leaves the first week of November.

Convention planners are reminded that advance publicity for their meetings is more important now than ever before, with travel so expensive. Those in the central part of the States may want to try the ARRL Midwest Division Convention in Salina KS Oct 3/4, featuring Hugh Vandegrift, WA4WME, who will be a principal speaker and show his two slide sets... "Three Clippertons Revisited" on Sat and "27 Great DXpeditions" on Sunday.

We now know the callsigns of some of the stations for which fake QSL cards were printed and distributed from California; they are claiming that 60,000 are in circulation. If you are planning to submit any of the following, pay particular attention to them:

<u>SV1DC/A</u>	<u>SV1IW/A</u>	<u>SV1JG/A</u>
<u>JT1KAA</u>	<u>5R8AL</u>	<u>C9MIZ</u>
<u>BV2A/B</u>	<u>4S7DA</u>	<u>9S4AX</u>
<u>K5CO/5A</u>	<u>HK0AA (S.B.)</u>	<u>HK0AA (B.N.)</u>
<u>3Y1VC</u>	<u>XU1DX</u>	<u>T3KC</u>
<u>A51PN</u>	<u>TY9ER</u>	

Another convention: ARRL Roanoke Division, Virginia Beach, VA Sep 26/27. This one will have on hand Jim Wise, W4PRO/CE0 and John Kanode, N4MM, with a show on last year's record-setting CQ WW Contest operation from Curacao, PJ2CC.

Last chance to work prefix VP1 will be Sep 21, the day they become independent and start using a new prefix, probably either J9 or J0. Buzz Jehle, N5UR, will be there operating as VP1UR until the magic hour, then switch to a new call for two more days before returning to Conn.

Does it seem to you that this is the time of the year when the days seem to shorten faster than at any other time? We should mention The DX Edge (PO BOX 834, Madison Square Stn, NY NY 10159) again. It really is an interesting device and even a conversation piece for non-hams. You can see sunrise and sunset times readily, important not only for the "low bands" but for all HF bands. And it will never be out of date. \$14.95 ppd US/Canada/Mexico; others add \$2 for surface mail or \$6 for airmail. They will send you a brochure for an SASE.

Brit. V. Is.	VP2V...	Oct 21-26, plus CQ WW Phone by KØØØ, KP4s BZ, BPJ, NP4CC and K8MMM
Crozet	FB8WG	RUMORED starting November

Nothing is known about "5A9BQ," reported by several readers on Sept 3/4, 21018 CW.

Rumors which have evidently NOT materialized include Revilla Gigedo by WD6DRM, Bangladesh by JA8WMU, and Albania by some Spanish ops. All were supposedly possible early this month.

Airmail subscribers note the new envelopes we are using starting this issue. We hope they will speed service to you. They are also very expensive.

Don in Seattle...sure the home "Asteroids" isn't nearly as good as the professional version, but look at the price ratio. We understand they have sold a million Atari games...wonder what a KWM-380 would cost in those quantities?

Public television is presently re-running the "Voyage of the Beagle," with lots of educational geography and history. "Cosmos" will be rerun later this month. "Odyssey" will have 13 new episodes, Tuesdays beginning Sep 29, with emphasis on archeology and world social patterns. "World," not a series but occasionally run, has its first show Fri, Sep 18, on the Russian army.

Try your DX Edge on this gray-line schedule: HL9FR Sep 15, 0939Z, he on 3525, listening 3810. The alternate schedule is Oct 1 at 0923Z.

ZL1AMO is still talking about a Nov or Dec operation from Kermadec; the So. Cal DX Club (PO BOX 75095, LA CA 90075) will be helping with equipment if the trip comes off. They have NOT asked, but a donation might not hurt the cause.
